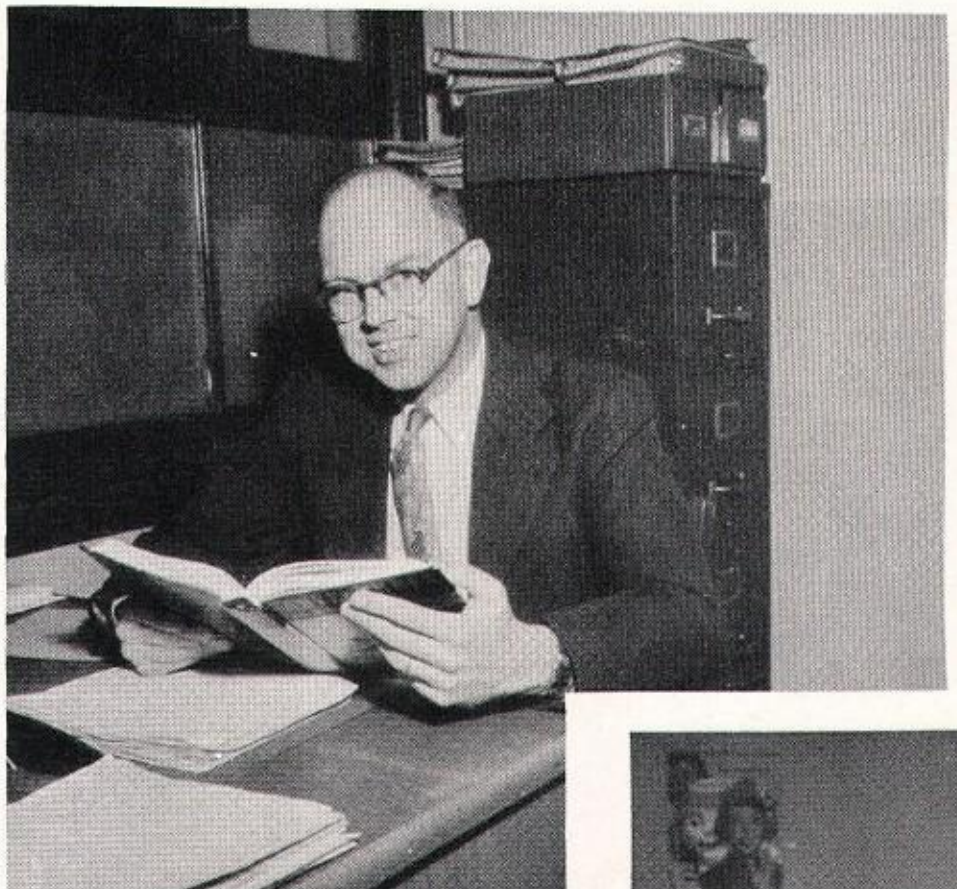
WALTER A. HITCHCOCK
Superintendent



Superintendent

The main highway of your life is supported by a roadbed of knowledge, habits, attitudes, and desires. Where you go in life depends on what you are and what you desire. What you get from life depends on how much you desire it-how much you are willing to work and plan and cooperate and use your resources. The main highway of your life is supported by the firm roadbed you are building now, and that is why today is such an important day. My wishes are for your continued success in the future.

Principal

Students of the Moxee High School must be complimented for the fine record they have achieved under many adverse conditions. We are proud of our graduates who are making a good mark in various walks of life. Their achievements prove that success or failure does not necessarily hinge on conditions or situation, but on the character, desire and courage of the individual. To the graduating seniors-God speed and may you also bring pride and honor to Moxee High. To the lower classmen comes a challenge-to do as well as those who have graduated before them.

Student Council

The student council of Moxee High School is the governing body of the school. Composed of representatives from every class and club in the school the council approves or vetoes all plans made by these organizations for money making or spending projects and such things as parties or dances.

As a cross section of the student body, the council makes rules and regulations governing the student body.

The first social event of the school year, the All-High Mixer is sponsored by the council. Other projects are the Homecoming dance which is held in the late fall or early winter honoring the graduates of past years and inviting them to come back and visit M.H.S. The last project of the year is the Student Council picnic and initiation of the new A.S.B. officers.

Officers of the student council are the A.S.B. officers and Mr. Ralph Miller, principal, is the advisor.
